

BIMID Assessment District Major Projects

Return on Investment of Assessment District Funds based on BIMID Cost share and State/Federal (DWR) Funding

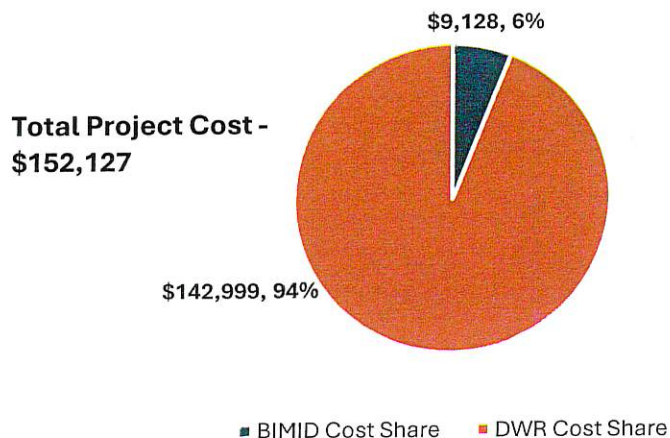

Northwest Levee Improvement and Stone Road Seepage Reduction Project

Horseshoe Bend Project

Habitat Enhancement and Habitat Establishment on Bethel Island

Over the last 10 years of the current assessment period BIMID has obtained approximately \$17million in project funding for Bethel Island improvement projects. BIMID has leveraged approximately \$1.4 million of assessment dollars. BIMID used 8% cost share to receive 92% state/federal funding. This is equivalent to receiving 92 cents on the dollar and providing 8 cents of assessment dollar cost share. Cost sharing would not be possible without Assessment District Funding .
